Your Pipeline to Productivity

Remove burrs in less time
— with a smooth-running feel
your operators/inspectors
will appreciate! These wheels
are soft, to reduce defects,
yet wear like iron, for fewer
wheel changeouts.

3M

Built to Endure

For Oil & Gas Metalworking Applications

- 30 to 50% faster burr removal
- Up to 3x longer wheel life in deburring applications
- Minimal dust and debris – less dust equals less cleanup
- Improved operator “feel”
- Minimizes thread overcutting – results in fewer rejects

► **Fast, consistent pipe deburring, blending, finishing and more!**

How does this technology work?

The Science of Ceramic Precision-Shaped Grain

Traditional non-woven abrasive products are constructed from particles of irregular-shaped abrasive materials, such as aluminum oxide, bound to a nylon web.

In our new Scotch-Brite™ Deburr & Finish PRO Unitized Wheels, conventional abrasive particles have been replaced with our proprietary ceramic precision-shaped grain. The hardness of the ceramic material, combined with the self-sharpening grain, provides longer life and helps you get the job done faster – without sacrificing the smooth feel and control you expect from Scotch-Brite wheels.

Versatile performance from factory to field

Scotch-Brite Deburr & Finish PRO Unitized Wheels are ideal for both OEM use and for pipe refurbishment and maintenance. These hard-working, high-performance wheels quickly blast through dirt, corrosion and other contaminants – without loading and without changing thread geometry, so pipes can be returned to service faster.
