THE *SHIELD*

NAIL GUN HAND PAD

Known as The Shield, this hand pad is the result of several years of research and development with industry experts.

FEATURES

- A nail gun hand pad with plating made with para-aramid that's strategically placed to protect the areas of the hand most susceptible to potential nail gun injuries.
- Durable split-leather with reinforced thumb crotch for added strength
- Features adjustable Velcro® brand fasteners that ensure a snug and comfortable fit over existing safety glove
- To be used as a complement to an existing, task-appropriate glove, not as a stand-alone solution

AVAILABLE IN

HPNG/LHO - Left Hand
HPNG/RHO - Right Hand

APPLICATIONS

Prefabrication Assembly
Framing
Roofing

INDUSTRIES

Construction

Developed through extensive partnerships with industry experts, The Shield is expected to perform both to a high standard and under extreme workplace conditions. Therefore, it is imperative that it is kept in the best physical condition possible to ensure its benefits are realized.

Patent Pending
