Sure Knit™

13-Gauge Cut-Resistant Composite Gloves
made with Dyneema®

Dyneema®
The softer strength

#S13GDSTL

 **CFIA**

Fine-gauge gloves are knit with a composite yarn that offers ANSI level A5 cut protection - remarkable for a 13-gauge glove. That's 2620 grams of cut resistance thanks to a blend of Dyneema® and stainless steel, and because they are also treated with AlphaSan® - an antimicrobial agent – they are ideal for the food and beverage industry.

These gloves also have spandex in the blend for a snug fit and feel. They are available in a full range of sizes, from extra small to extra large.

To limit the risk of allergic reactions, all of our Canadian-made gloves are now crafted with latex-free materials

CFIA approved for food handling. Also touchscreen compatible.

Dyneema® is a registered trademark of Royal DSM N.V.

SURE KNIT

ABRASION

CUT

2620 grams of cut protection.

FEATURES

- Gloves are a blend of Dyneema® and stainless steel, and offer ANSI cut-level 5
- Fine 13-gauge knit reduces hand fatigue for all-day comfort and great touch sensitivity
- Treated with AlphaSan®, a silver-based antimicrobial agent that prevents and impedes bacterial growth
- Gloves stay fresh and odor-free. Anti-microbial agent does not impart any taste to food being handled

APPLICATIONS

Meat Processing
Food and Beverage
Handling Sharp Materials
Solar Panel Manufacturing
