TESTIMONIAL

END USER

"These gloves are well-crafted, as opposed to others I've used that did well for their primary purpose but fell short on longevity. These fit snug and secure -- to the point where you forget you have them on. If you're the type of person who works around the shop during the weekend (or if it's your job, perhaps), these are perfect for light lifting and handling mildly sharp objects (scrap metal, tools with sharp components, etc.). Highly recommended!"
